## **California Is Leading the Way with Accessible and Affordable Health Care**

*California is raising the standard for quality, affordable health care and California's Health Plans Are Part of the Solution*

**Sacramento, Calif., December 19, 2019** — As the discussion around healthcare dominates in the national presidential election, [Your Plan Your Advocate](#) is encouraging candidates and others to look to California as a model that is providing more affordable and accessible healthcare than most states.

### **Did you know:**

- California covers all residents, whether they have [documentation or not](#), up to 26 years of age.
- California is the first state to make health care more affordable for middle-income earners with [subsidized support](#).
- California has adopted the Minimum Essential Coverage Requirement that helps make communities healthier and health care more affordable for all.
- 93% of Californians are covered by health insurance in California.
- California's health plans are dedicated to providing Californians with affordable access to quality care by supporting policies that protect and lower health care costs.

To learn more about why California is leading the way on health care, see our most recent [fact sheet](#) and [this video](#). Visit Your Plan Your Advocate on [Twitter](#) and [Facebook](#) as we share more about California health care.
