

DON'T BE FOOLED:

AB 290 will NOT INTERRUPT Health Coverage for California's Dialysis Patients

Big dialysis companies and the American Kidney Fund (AKF) are using fear tactics and are willing to say anything to protect their profiteering schemes. They are claiming patients will lose access to dialysis if AB 290 passes.

- ALL current 1,758 AKF private health insurance recipients will keep their private health care coverage without interruption.
- ALL End Stage Renal Disease (ESRD) patients will be eligible for Medicare Advantage starting in January, 2021.

How will dialysis patients benefit from having Medicare and Medi-Cal?

Low cost premiums and more.

✓ Medicare Advantage monthly premiums: \$35 per month

✓ Medicare will pay up to three years of coverage for anti-rejection drugs

✓ Dual Coverage patients will pay zero out of pocket costs including no co-pays and no deductibles

✓ Dialysis treatments are covered, patients are still eligible for AKF grants

VOTE YES ON AB 290: All Dialysis Patients Will be Covered
